

WF1

Domestic & Industrial Water Filter

Product Description

Our N*I*C*E filter with its specially researched and designed cartridges and transparent bowl gives you your money's worth. Many of us paid a lot of money for water filters that do not deliver what we want; a reasonable supply of nice clean water to drink, cook, bathe and wash our clothes. N*I*C*E water filters are not only economy but will provide the reasonable needs which you have paid. For years, your family will enjoy continuous flow of clean water. The N*I*C*E filter will complement and prolong the lifespan of your existing expensive water filters.

1. Products are of high quality, heat resistant and durable
2. Suitable for tropical climate
3. The single open end cartridge gives maximum filtration with zero bypass
4. Full range of spare parts readily available
5. 30-days money back guarantee for unused item and 6 months product guarantee.
Applicable to Malaysia only.
6. Produced by the largest cartridge manufacturer in Asia and one of the largest in the world

Depending on the quality of water supply, a cartridge will last 1 - 2 months in a typical Malaysian home. Replacement cartridges are available at appointed authorised dealers and our office.
