## Activated Carbon Filter Cartridges

### Product Description

This activated carbon filter reduces chemical levels in domestic water.

- Removes chlorine, pesticides, fertilizers (organochlorines, organophosphates, etc.)
- Removes trace metal compounds of Aluminium (Al), Arsenic (As), Plumbum (Pb), Cadmium (Cd), etc.

### Product Specification

#### Product Available

- Activated Carbon Filter Model ACF 10/SOE
- Granular Activated Carbon Filter (GAC)
- DOE with length : 4.8 , 10 , 20 , 30 , 40

Housing : Polypropylene  
Material : Granular Activated Carbon (250g)  
Capacity : 6 L/m  
Pressure drop max. 8% from inlet supply

#### Activated Carbon Filter Model ACFS

Housing : Polypropylene  
Material : Granular Activated Carbon (150g) with sediment filter capability  
Capacity : 2 L/m  
Pressure drop max. 15% from inlet supply  
Recommendation : a sediment filter to be installed before ACF or ACFS
